

LABTORY

Safety

Wheel of Wisdom - lab attire

= Prevents getting hazards or chemicals on yourself and uniforms.

If there is any chemicals or hazards on you, you can use the safety shower.

= Prevents from getting hurt on our feet.

glass.

Doesn't get our hair in the way!

Protect our eyes from any chemicals or hazards.

If something does get in your eyes you use the eyewash.

= Protects your hand from chemicals burning on your hand.

Things you need to look out for

o Make sure no belongings are in your way.

o Broken glass are only put in a bin for only "broken glasses"

o Some chemicals are not allowed in the drain (sink)
